Food Security & Education Programs in Pakistan

Reporting Period: [January–December 2025]

Message from the Organization

At GenHeart Initiative Corp., we believe that access to basic food and education are fundamental building blocks and a basic human right of every individual. Throughout this reporting year, we continued our commitment to supporting vulnerable families and children living in poverty across Pakistan through two core humanitarian programs.

By providing month supply of food rations to struggling families living under the poverty level and supporting the educational and residential needs of orphaned children, we strive to reduce immediate hardship while investing in long-term opportunities for the children in need.

This report highlights the impact of these efforts and reflects the generosity of our donors, volunteers, and community partners who make this work possible.
